

SMITH COLLEGE

**Geo 270j – Carbonate Systems and Coral Reefs of the Bahamas
January 12 – 24, 2008**

**Hosted at the Gerace Research Center
San Salvador Island, Bahamas**

Emergency Contact Information

While you are in the Bahamas, it is best if family members and friends **DO NOT** try to contact you by phone. Phone calls to the Bahamas are expensive, and the only phone line to the Gerace Research Center (GRC) is the business phone, needed by the staff for their daily work. GRC staff members are not available to handle personal messages except in the case of a real emergency. This also applies to the GRC main e-mail address.

You will be able to call home from San Salvador, either from the Gerace Research Center campus or from the Bahamas telephone company office in the nearby village of Cockburn Town. You also can **send and receive email** at the GRC for a very minimal charge. So, the message here is: **don't call me except in case of a real emergency. I'll contact you!**

Emergency contact points at the Gerace Research Center on San Salvador Island, Bahamas:

Telephone: 242-331-2520 or 2521

Fax: 242-331-2524

e-mail: grcss@juno.com

For the night of January 12th, we will be staying at a motel in Miami, as below:

Red Roof Inn – Miami Airport
3401 NW Lejeune Road
Miami, FL 33142

Telephone: (305) 871-4221

**PLEASE LEAVE A COPY OF THIS SHEET WITH THOSE THAT NEED TO
KNOW OF YOUR WHEREABOUTS DURING THE TIME OF THE COURSE**
